Professional Summary _____

Well-Founded coder, leader, and problem solver looking to begin a journey into the full-stack engineering field and its possibilities. Calm under pressure and is good with time management, resolving conflicts, and being a helpful resource and idea machine.

Soft Skills _____

- Quick to Adapt
- Attention to Detail
- Independent, self-learner
- IT literate

Technical Skills _____

- HTML5
- CSS (Flexbox, CSS Grid, Animation)
- SCSS/SASS
- Python
- JSON
- Flask
- MongoDB
- Javascript
- UML
- UI/UX
- ReactJS
- SQL
- PostgreSQL
- GIT

Projects_____

- Fantastic Fries: A multi-page, responsive website that utilizes HTML5, CSS3, Flexbox, CSS Grid, Animations, media queries, custom forms, responsive images, and various front-end techniques.
- Diner Menu: A pure JavaScript CodePen that allows the user to order from a pretend diner. https://codepen.io/alily223/pen/WNyNvbg
- Portfolio: A ReactJS portfolio that utilizes JSON, HTML, Javascript, Scss, Animations, custom forms, responsive images, and API, fully compatible with its backend. This Portfolio is an entire custom site started from scratch.
  (Github Repo for Portfolio is at https://github.com/Alily223/frontendportfolio, with its backend repo at https://github.com/Alily223/API)

Work Experience_____

2017 - 2022 - I have yet to gain work experience because I must stay home and care for my father. He is happily doing better and now allows me to open up to this field of work.

Education

- **High School Diploma, John Glenn High School, Westland, Michigan**
  Just the average high school experience of six class periods and the rare opportunity I had to attend the Ford D Career Technical Institutes media classes.
- **Full-Stack-Development Certification, Bottega University, Salt Lake City, Utah**
  remote schooling, learned everything I know to date about full-stack development from this course, including all the technical skills seen above.

Hobbies

- Gaming
- Coding
- A Little bit of art here and there
- Writing
